## HOW TO PLAY

Anatomy Fluxx is the newest addition to our education line and takes you deep into the human body. It all begins with one basic rule: Draw one card, play one card. You start with a hand of three cards, add the card you drew to your hand, and then choose one card to play, following the directions written on your chosen card. As cards are drawn and played from the deck, the rules of the game change from how many cards are drawn, played, or even how many cards you can hold at the end of your turn.

- **Game designed by an ER doctor and all factlets checked by multiple anatomy professionals.**
- **Learning Rules provide in-game bonuses for learning the anatomy factlets on the cards.**
- **Variations in game play make Anatomy Fluxx truly educational for beginning science students through medical school.**
- **Reproductive organs are represented, but can be removed to suit younger students.**
- **Fluxx is a crazy fun game—we've sold over 3 million copies!**
